**Editor with an engineer’s pipeline brain and a storyteller’s eye.** Two years running a content studio — self-taught across pacing, hooks, sound and voiceover — plus the technical depth of having built an AI video-generation product. I’m comfortable owning a piece from prompt and generation through edit, captions and final delivery, and I cut everything for retention. Going full-time and hands-on with a team that ships at volume.

01 SELECTED WORK

02 EXPERIENCE

**Editor & Creator / Founder** 2024 – Present

Xyzion (DreamPixel) · AI content studio + product · Remote

- Delivered **2,000+ minutes** of vertical microdrama for **Pocket FM India** — slate scoping, scheduling, QC and final delivery.
- Paid slates delivered for **ReelShort**, **DramaBox** and **Dashverse** — vertical drama at platform volume and cadence.
- Self-taught the full edit pipeline by shipping daily: **pacing, hooks, captions, sound design and voiceover**; also brand, SaaS-launch and influencer/UGC formats.
- Built **DreamPixel**, an AI video-generation platform — the technical depth behind my prompt-to-delivery workflow.
- Co-founder now leads the business; transitioning to full-time, hands-on craft.

**Software Engineering & Leadership** 2015 – 2024

10 years building large-scale distributed systems — **Engineering Manager** & Staff Engineer at **Agoda**, SDE I–III at **Flipkart**.

03 EDUCATION

**M.Tech, Computer Science — IIIT-Delhi** 2015 · CGPA 9.17

**B.Tech, Computer Science — IIIT-Delhi** 2014 · CGPA 8.3
